Tänzerin als Blumenstecker in einer Schale mit drei Flügeln als Füßen

Hello,

I would appreciate any assistance to correctly identify the maker or makers of the attached picture. I believe this Figural Flower Float Bowl Set was made by **Libochovice Glass Works**.

I would also like to know if there is a catalogue available on this type of pressed glass.

I look forward to your reply,
Regards Neil Cooper

vielleicht Libochovice?

SG: Hello Mr. Cooper,

I saw this figure several times since 1988 but we could not find the maker until now - I saw this bowl for the first time, maker unknown too!

This figure was produced also after World War II - probably by Sklo Union, glasswork Libochovice. But I

am certain that this bowl does not come from the years after 1945. Because the colour of figure and bowl are the same this figure was also produced before 1939 and not after 1945.

There were no catalogues found from Libochovice until now - it is possible that they made figure and bowl before and after World War II.

I found the same bowls with other colours and one other figure: look below!

With best regards,
Siegmar Geiselberger
