## Fußschale mit Rillen-Dekor und blauschwarzen Schlieren, Hersteller unbekannt, Tschechoslowakei?, um 1935?

Hello Siegmur,

please can you help me with this bowl - is it from [Samuel Reich & Co.](#) or do you know where it was made? The bowl is 17.5 inches (44.45 cm) diameter and 5.5 inches (13.97 cm). I didn't find it in some older catalogs from Brockwitz or Walther.

I'll keep looking and thank you for your assistance.  
Thanks for publishing it!  
Warm regards, Lisa

Hello Lisa,

I would like to publish your bowl on my website, because this glass is very interesting - I never saw anything similar. Maybe somebody other knows more about it.

Most probably the maker was a glass work in Czechia about 1935. I have so many catalogues from German glass works that I am certain that it was not produced here - maybe Walther or Brockwitz - and I have enough catalogues from S. Reich & Co. so I can say for certain that it was not produced there.

With best regards, Siegmur
